LOCAL DEPARTMENT.

Thermometrical Table.

Fig. by Andrew Palmer, Jr., at the Wisconsin Drug Store.

Date.	Bar.	Therm.	Wind.	Weather.
June 14.	30.0	72.0	S.W.	Clear.
June 15.	30.0	72.0	S.W.	Clear.

HYATT HOUSE.—From an advertisement in today's issue, it will be observed that the Hyatt House, with the stores, etc., connected with that fine block, is offered to be rented. We learn that it has been purchased by eastern capitalists, and from what we are informed, we expect soon to see the Hyatt House Hotel open and ready for the entertainment of guests. This will indeed be gratifying to all who are interested in the prosperity of the city.

Rev. H. C. Tilton of this city, will deliver an oration on the 4th of July next, at Lake Mills. The bills say that the celebration will be in the "good old style of our forefathers." Those are the sort we like.

The assessor was around to-day and threatened to leave us out if we did not fill out our list immediately. We complied without delay, and it looks up at \$80,000,000, mostly in newspaper accounts.

Remember that there will be a meeting at the council chamber this evening to make arrangements for the celebration of the coming Fourth of July.

The Excursion.—The Madison papers are very complimentary in their notices of the excursion to that city last Wednesday. The Journal says:

"After dinner, the gathering dispersed to look about the capital and the city of their pleasure. It was almost a surprise party to the Madisonians, and in numbers much exceeded their expectation. As far as we could judge, the children and grown people likewise were enjoying this occasion very much. Doubtless it will suggest to our Sabbath schools the propriety of a return call, and that during the summer, they should take a trip to see our pleasant and thriving neighboring city of Janesville."

The Patriot says:

"We must compliment the city of Janesville upon being able to produce such a creditable show of intelligent looking scholars and teachers. We are wondering now whether it was the first or last that attracted to the park all the young ladies of the city, and gave them a much better look than they usually have in their offices."

Mr. Schurz is engaged in Milwaukee as orator for the 4th. The desire to have him in Janesville cannot therefore be gratified.

We opened the Janesville Gazette this morning, when bad bug nearly large enough to tow a boat, crawled up under the editorial head and came to a halt. This is the second instance we have known of such lively localities being in papers. Hereafter we hope our Janesville cotemporary will not use his bed for a matting table.—*La Crosse Union and Democrat.*

Of course that "bug" was raised on the shores of the Mississippi or he could not tow a flat boat. His large size may be accounted for from the fact that he is a resident of La Crosse, where all the "big bugs" dwell; and his elericaly in crawling up to the head of the editor of the Democrat shows that he was fond of society and knew where to look for it. We do not wonder that the bug halted when he arrived at such headquarters. We trust that the editor of the Democrat will hereafter refrain from throwing his exchange papers upon that old lounge in his office, which is supposed by some to be a "little buggy."

For the Daily Gazette.

The Festival.

Mr. Local.—Not seeing your smiling countenance last evening, and presuming that you and your readers wish to learn the result of the festival at the Hyatt House, I assumed the liberty of "posting" you. The festival was a decided success, and will be long remembered by the participants as a good thing. Too much credit cannot be awarded to the ladies who planned, arranged and carried out the performance. The arrangements were all good, the room was well decorated, the strawberries tempting, other eatables inviting, charges very moderate, and, in fact, everything in such order that the veriest grumbler must acknowledge that it was a good thing to be there. If the receipts were sufficient to please the originators, and I hope they were, there can be no cause for disappointment, as all enjoyed it. Such gatherings are calculated to display the good feelings of a community, and I trust that we may have many repetitions of the same. And allow me to ask if there are not many young men, and old men, too, in our city, who might spend their time and money in saloons, etc., who would not benefit themselves and their friends more by giving one-half of their expenditures to as worthy an object and as pleasant a time as this?

Yours, &c.,

DORRIS.

P. S.—I forgot to mention the most interesting item of all—the little flower girls, of ages varying from six to thirteen years. Their heads gaily trimmed with flowers, their hands filled with bouquets, and their pleasant "Please buy my flowers, sir" were perfectly irresistible.

DEATH AT THE POOR HOUSE.—Adrian Stillwell died at the poor house in Johnson yesterday. Mr. S. was familiarly known as Elder Stillwell, having formerly been a Baptist minister. He came to this state from Pennsylvania, and had been an inmate of the house for five or six years. For several years preceding his death he had been blind, and was the third person received into the house. Of the inmates at the time Mr. Holmes, the present superintendent, took charge of the house, only one is now under his charge.

THE WAR EAGLE WRECKED.—The steamer War Eagle was wrecked a few days since, on the lower Mississippi, by the hurricane that dashed over that section.

ABBE'S PATENT PIG PEN!

**Economy, Utility, Neatness, Permanency,
AND CHEAPNESS!**
ITS Economy consists in the construction of the trough
so that the animal cannot get his feet into or over the

from the trough in any way, and the proprietor guarantees a saving of 37½ per cent. in the fattening hogs by the use of this pen.

Its utility consists in its usefulness, from the fact that the front of the pen is so constructed that it can be used as a door for ingress or egress and thus doing away with the trouble of turning a pen to pieces whenever the occupants have to be removed.

Furthermore, because the person feeding the animals this pen does not come in contact with the filth that

Infants accumulate in the pen, and the trough can fill or empty without the person feeding getting so close or reaching over the side of the pen, and during a feeding the hog is kept entirely free of the feeding trough. By the use of this pen, the animals can be kept as neat and clean as any other animal about the farm yard.

This invention was patented in 1864, and wherever introduced has come into general use, and is spoken of by us having them on their premises, in the most favorable manner, and as accomplishing all they are expected to do by the inventor.

The undersigned having purchased the right of the above pen for Rock county, are prepared to furnish them any quantity to farmers and others, and invite all to call and examine one on exhibition at our stand, and

tify themselves.
 All orders or letters of enquiry addressed to us at
 nesville, will meet with prompt attention.

those nations' increasing prosperity, and the progress of civilization, which belong to an old and pure line. The business of manufacturing spurs, guns, and offering them as headdresses under the title of "Armatite," "Cordaid," "Medicard," etc., etc., become so common, that the public are easily suspicious of nearly everything that is offered in such singular forms, and the trade has thus been brought to disrepute. It has remained for our house, (established in 1778) to supply the pressing popular need, and inaugurate a new era in the history of the trade. To that end, our established reputation—founded upon
